## LAKE HUGHES ASSOCIATION

### 2023 MESSAGE FROM THE PRESIDENT *(Daniel Leduc)*

Salutations to all

A new summer season has just begun during which we will have several opportunities to meet and strengthen ties with members of our community. Several activities will once again be organized thanks to the dedication of many of you. I take this opportunity to invite you to participate in large numbers and, if you can, do not hesitate to get involved in the organization of these events.

Let us redouble our efforts to keep our lake healthy by taking care of its shores and limiting access to only our boats that do not visit any other water point. Let us be aware of the fragility of this valuable asset

#### FIREWORKS (CONTACT: Bruno Estebeteguy)

As beautiful as they are in the sky, fireworks are banned on and around Lake Hughes. They have a terrible impact on the environment especially when they end up at the bottom of the lake. Fireworks are toxic, a fire hazard, a major source of noise pollution and are detrimental to all animals and wildlife.

Please continue to protect our beautiful lake and surroundings.
